RTOG Foundation Representative

Mohan Suntharalingam, M.D.
Vice Chair Membership

Maria Werner-Wasik, M.D.
Vice Chair Publications

March, 2012

Dear Colleague:

The Radiation Therapy Oncology Group (RTOG) was established in 1967 as a cooperative effort of physicians, physicists, and biostatisticians to pursue clinical investigations designed to increase survival and improve the quality of life of patients with cancer. Over 350 academic and community-based facilities in the United States, Canada and internationally participate in RTOG clinical trials, including nearly 90% of all National Cancer Institute designated comprehensive and clinical cancer centers. Since its inception, RTOG has opened more than 460 protocols, enrolled over 75,000 patients, and published more than 700 papers reporting the results of its findings.

We would like to offer your organization the opportunity to reserve a tabletop exhibit at the RTOG Semiannual Meeting to be held June 14-17, 2012 at the Loews Philadelphia Hotel in Philadelphia, PA. This meeting will draw approximately 750 attendees, which will provide the perfect opportunity for a mutual exchange of ideas.

If you are interested in exhibiting with us, ***please complete and return the RTOG Semiannual Meeting Exhibitor Application Form and the Personnel Information Form.*** The cost to exhibit is $3,000.

I hope you will make plans to join us in Philadelphia. In the meantime, please contact the RTOG Meeting Staff at 215-574-3224 or via e-mail at RTOG-Meetings@acr.org with any questions or concerns.

Sincerely,

Sharon Hartson Stine
Senior Director, Clinical Trials
Group Administrator
