## Thank You for Your Continuing Efforts

Thank you to everyone who enrolled patients in 2011. You added 59 patients to the accrual list, of which 5 were enrolled in the month of December. The year 2012 is off to a good start and is credited with one patient accrued thus far. The focus is on Group III, which is more difficult to enroll to than Groups I and II.

## Group III Update

*Just a reminder about eligibility....*

Patients eligible for Group III are those with a WHO grade III or recurrent grade II meningioma of any resection extent and those with a newly diagnosed subtotally resected grade II meningioma. They are treated with IMRT, 60 Gy in 30 fractions.

Forty four of 55 patients have been enrolled to Group III. Please remain watchful and enroll patients who are eligible for this group. The projection date for closure remains May 2012.

You're doing a phenomenal job...11 patients to go!

## Accruing Sites

We welcome the following new sites to our list of accruing institutions:

*Kalamazoo CCOP- West Michigan Cancer Center ▪*

*Long Island Jewish Hospital ▪ Mayo Clinic in Arizona*
