SUMMARY OF CHANGES

RTOG 97-06 Bladder April 1, 1999

The following clarification was made:

Section 11.2.1 Added after the last sentence

“Superficial bladder cancer (Tis or Ta) found after induction therapy in a site remote from the primary tumor does not constitute failed induction. These patients will be scored as having had a complete response.”
SUMMARY OF CHANGES

RTOG 97-06 Bladder

September 8, 1998

The following changes are in effect:

Section 4.2 The CT scan should be done no more than six weeks prior to start of protocol treatment.

Section 7.4 Added to line 6 (also affects the Schema)

Cisplatin (70 mg/m²) may be given as a single dose on day 2 instead of 25 mg/m² on days 2, 3, and 4.
The following changes are in effect:

**Cover Page** Dr. Hagan has moved to the Medical College of Virginia.

**Schema** Registration may take place up to 6 weeks post TUR. This change also affects the Eligibility Checklist (Q12) and Section 3.1.11.

**Eligibility Checklist (p.2)** Added all questions asked at registration.

**Section 12.0** The M2 Form is no longer due.
